PROFESSIONAL SUMMARY

Senior Flutter Engineer with 3+ years shipping production applications to Google Play and the App Store, including a white-label platform of 299 apps engineered and maintained from a single codebase. Specialist in scalable mobile architecture (BLoC, MVVM), CI/CD release automation with Fastlane, real-time systems (WebSockets, Firebase), payment integrations (Stripe, Google Pay, Apple Pay), and native-to-Flutter migration; working knowledge of Kotlin with Jetpack Compose and applied AI integration (Groq API).

TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter, Kotlin (Jetpack Compose), Python, FastAPI, JavaScript

Architecture & State: MVC, MVVM, Feature-First, white-label / multi-flavor apps, BLoC, Provider, GetX, Stacked

Backend & Data: REST APIs, WebSockets / Socket.IO, Firebase (Auth, Firestore, FCM, Analytics), MySQL, Hive, SQLite, Shared Preferences

DevOps, Testing & Tools: CI/CD with Fastlane, GitHub Actions, Play Store & App Store release management, Git, widget testing, Mockito, bloc_test, Postman, Jira, Figma, Android Studio, VS Code

Integrations: Stripe, Google Pay, Apple Pay, Google Maps, OneSignal, DataDog, deep & universal links, Groq AI API

AI-Assisted Development: Claude, GitHub Copilot, Cursor, ChatGPT, Google Antigravity

PROFESSIONAL EXPERIENCE

Senior Software Engineer (Flutter) | *F-Tech Solution, Karachi*

Sep 2025 – Present

- Lead the native-to-Flutter migration of an enterprise mobile portfolio, architecting integrated Flutter modules embedded inside existing native apps for incremental, zero-disruption rollout.
- Deliver the full mobile lifecycle end-to-end — feature development, SDK/version upgrades, release management, and deployment to Google Play and the App Store.
- Collaborate with cross-functional stakeholders to scope, plan, and ship product enhancements on schedule across multiple enterprise applications.

Flutter Engineer | *Avialdo Solutions, Karachi*

Jun 2024 – Sep 2025

- Engineered and maintained a white-label platform of **299 production apps from a single Flutter codebase** using BLoC and flavor-based configuration, eliminating the cost of separate per-client codebases.
- Automated batch builds and store uploads across hundreds of app flavors by building Fastlane CI/CD pipelines, drastically reducing manual release effort.
- Scaled Firebase, OneSignal push notifications, DataDog monitoring, WebSockets, and deep linking across the entire platform for real-time communication and production observability.
- Built reusable theming and secure local-storage layers (Hive, Shared Preferences) shared by every client app.

Associate Flutter Developer | *Centillion, Karachi*

Jan 2023 – Mar 2024

- Built pixel-accurate, responsive Flutter interfaces from Figma designs for client-facing mobile applications.
- Integrated REST APIs, sockets for real-time updates, payment gateways, Google Maps, and Firebase Authentication.
- Delivered unit-tested features across multiple state-management patterns (Stacked, GetX, setState), safeguarding core business logic.

SELECTED PROJECTS

- Linked Union** — white-label platform serving 299 US labor-union apps from one codebase with real-time notifications and monitoring. *Flutter · Firebase · OneSignal · DataDog · Hive · WebSockets · Fastlane*
- QnE (Quick & Easy)** — e-commerce grocery app: auth, catalog, cart, express delivery scheduling, and deep/dynamic links. *Flutter · GetX · Firebase · REST APIs · Dynamic Links*
- Gathr** — event-management app with live updates, Stripe payments, deep links, and venue tracking. *Socket.IO · Firebase · Stripe · Google Maps*
- MedTrac** — secure mental-health platform with appointment booking, patient tracking, and live consultations, built pixel-accurate from Figma designs. *Flutter · GetX · Firebase · REST APIs*
- AI Event Planner (Final-Year Project)** — event app with AI recommendations via the Groq API, multi-login, and in-app chat. *Flutter · Firebase · Groq AI API*

EDUCATION, CERTIFICATIONS & ACHIEVEMENTS

BS, Software Engineering — UBIT, University of Karachi • Graduated with Distinction, CGPA 3.5/4.0

2020 – 2023

- Top 10 of 70 teams, Saylani Devathon Summit 1.0 (SMIT)** — awarded a laptop for the winning technical solution.
- Prime Minister's Young Laptop Scheme** (academic merit) • **PCAP: Python Essentials** (Cisco) • **Flutter App Development Course** (Jawan Pakistan)
- Languages:** English — Professional Working Proficiency • Urdu — Native
